

Ms. Tamar Sanikidze
Minister of Education and Science of Georgia
Dimitri Uznadze 52
Tbilisi 0102

Dear Minister Tamar Sanikidze,

It is my great pleasure and honour to address you as the highest authority of education system in Georgia. I am very glad to share with you that Georgian students studying at ISM University of Management and Economics in Lithuania have been very well prepared to meet the challenges of our higher education, they perform well, are able to analyse, reason and communicate their ideas effectively. At our University we have students from all over the world, we are especially proud that we have a lot of good Georgian students and we are extremely happy about their results here.

It is important to note that we live in a region undergoing continuous social, political and economic changes. Our experience on how to manage these changes and capitalize on them is relevant and valuable to the world, i.e. to many countries and even whole continents, which anticipate similar transformations. ISM is a place where we reflect on such changes, make sense of and communicate them. Meanwhile, we are very much interested in attracting more brilliant Georgian students for studies at our University.

Therefore, we would appreciate it if you could announce at the Ministry of Education and Science of Georgia about a contest of applying to ISM and our special grants for students from Georgia.

Let me inform you that during 2016 intake we gladly offer all Georgian students to be granted special 20% discount on their tuition fee. Moreover, best students who will be participating in the contest can try to get 30-50% discount on tuition fee. Only best students from all over the world will be awarded this grant (depending on their competitive score).

The following Bachelor programmes delivered in English will be available for admission in 2016:

- Industrial Technology Management;
- International Business and Communication;
- Economics and Politics;
- Finance.

The following Master programmes delivered in English will be available for admission in 2016:

- Innovation and Technology Management;
- International Marketing and Management;
- Financial Economics.

Also, Doctoral programmes delivered in English available for admission 2016:

- Management (Baltic Doctoral programme);
- Economics (joint programme with other universities).
